FOURPOINTZERO GROUP

EXECUTIVE PROFILE · 2026

Engineering operational excellence and enterprise growth across Nigeria.

Procurement, power, technology, construction, agro-minerals and consulting, delivered by one accountable Nigerian group.

EST. 2016 · ABUJA & LAGOS

WHO WE ARE

A professional team built to always deliver.

Nigerian organisations rarely lack ideas or suppliers. What they lack is one partner who will scope the job, buy the right parts, do the work and still be around when the warranty is tested. Our engineers, sourcing specialists, project managers and analysts are that partner.

2016	10+	6	9+
Founded in Abuja	Years in operation	Core divisions	Industries served

MISSION

To simplify hard business problems by combining insight, technology, reliable execution and real sector expertise into results our clients can measure.

VISION

To be the growth and implementation partner Nigerian organisations call first when progress has to be sustainable.

Innovation | Excellence | Growth | Impact

Ifeanyi Christopher Okwesiri

Group Chief Executive Officer

FROM THE GROUP CEO

"Growth is not guesswork, it's a process."

I am an entrepreneur, business strategist, and Founder & CEO of FourPoint Zero Group, a business solutions and technology consulting firm. With over a decade of experience across energy, power, construction, engineering, technology, and hospitality, I help organisations solve complex challenges and achieve sustainable growth through commercial intelligence and technology adoption.

I welcome strategic partnerships, business transformation projects, and investment opportunities that drive meaningful economic and social impact.

EXPERIENCE ACROSS

Energy | **Power** | **Construction** | **Engineering** | **Technology** | **Hospitality**

One group, one standard, one escalation path that ends with a director.

2016 — Founded in Abuja
Fourpoint Zero Solutions Group starts with procurement and technology services for organisations in the FCT.

02 — Power and MRO capability
Supplying generator and HVAC spares leads naturally into maintenance, energy audits and captive power projects.

03 — Lagos hub opens
A Satellite Town base puts teams and stock close to the South-West's industrial and commercial clients.

04 — Subsidiaries launched
Alam Construction and Realty, OVL Prime and All Energy take on work that needs dedicated licences and crews.

NOW — Six divisions, one group
A multidisciplinary group serving nine core sectors from two hubs, with nationwide delivery.

01

PROCUREMENT & MRO

The right part, on site, before the line stops.

Procurement & Industrial MRO Supply

End-to-end sourcing of operational, maintenance, electrical, HVAC, generator, plumbing and refrigeration supplies, delivered against agreed SLAs.

- ✓ Framework agreements and rate cards
- ✓ Generator, HVAC and refrigeration spares
- ✓ Import handling and customs clearance
- ✓ OEM and authorised-channel sourcing
- ✓ Electrical, plumbing and facility consumables
- ✓ Vendor-managed inventory and site stores

YOU CAN HOLD US TO

Single desk · One purchase order route for every MRO category

Traceable stock · Certificates of conformity and supplier invoices on request

02

TECHNOLOGY & DIGITAL

Infrastructure that still works after the installer leaves.

Technology & Digital Transformation

Enterprise IT infrastructure, cybersecurity, networking, surveillance and custom software, built on Microsoft, Cisco, Dell and Hikvision ecosystems.

- ✓ Network design, cabling and Wi-Fi
- ✓ Cybersecurity, firewalls and endpoint protection
- ✓ Microsoft 365, cloud and identity
- ✓ Servers, storage and end-user devices
- ✓ CCTV, access control and surveillance
- ✓ Custom software and process automation

YOU CAN HOLD US TO

Documented builds · As-built drawings, port maps and credential handover

Security first · Hardened configurations and patch schedules from day one

03

POWER & ENERGY

Stop paying for diesel you do not need.

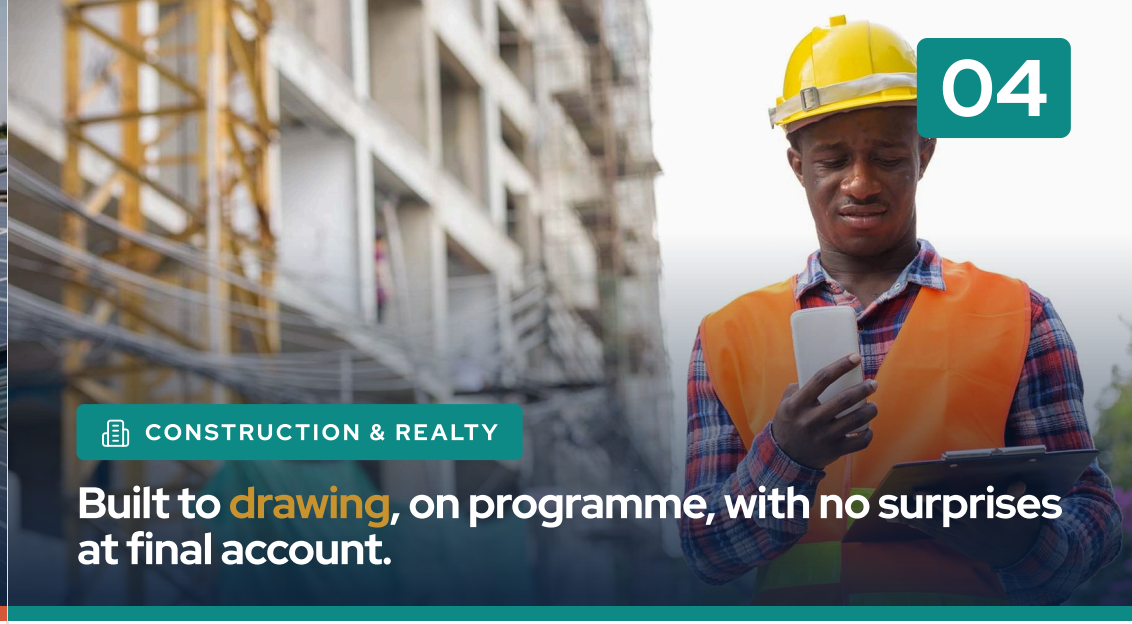

Power & Energy Solutions

Captive power generation, engine and transmission equipment, energy audits and sustainable backup systems for commercial and industrial facilities.

- ✓ Energy audits and load profiling
- ✓ Solar PV, battery storage and hybrid controls
- ✓ Engine and power transmission equipment
- ✓ Generator supply, overhaul and synchronisation
- ✓ Transformers, switchgear and ATS panels
- ✓ Planned maintenance and fuel monitoring

DELIVERED THROUGH

All Energy (AE) · Power that holds when the grid does not.

04

CONSTRUCTION & REALTY

Built to drawing, on programme, with no surprises at final account.

Construction & Real Estate

Residential, commercial and industrial construction, civil engineering, project management and real estate investment advisory through Alam Construction and Realty.

- ✓ Residential, commercial and industrial buildings
- ✓ MEP installation and fit-out
- ✓ Feasibility, survey and title due diligence
- ✓ Civil works, roads and drainage
- ✓ Project and cost management
- ✓ Real estate investment advisory

DELIVERED THROUGH

Alam Construction and Realty · Civil works, buildings and property, delivered to drawing.

05

AGRO & MINERALS

Land and what lies under it, managed like an operating business.

Agriculture & Solid Minerals

High-value crop production, farm management, agro supply chain optimisation and the responsible exploration and processing of limestone, granite and solid minerals through OVL Prime.

- ✓ Farm establishment and managed farming
- ✓ Storage, logistics and off-take agreements
- ✓ Exploration and licensing support
- ✓ Inputs, mechanisation and irrigation
- ✓ Limestone, granite and marble supply
- ✓ Quarrying and mineral processing

DELIVERED THROUGH

OVL Prime · From farm gate to quarry face, run like a business.

06

GROWTH CONSULTING

Advice that comes with people willing to implement it.

Business Growth & Performance Consulting

Operational restructuring, route-to-market execution and performance systems for SMEs and large enterprises that need results, not slide decks.

- ✓ Operational diagnostics and restructuring
- ✓ KPI frameworks and performance dashboards
- ✓ Market-entry support for investors
- ✓ Route-to-market and distribution strategy
- ✓ Procurement and approval process redesign
- ✓ SME growth programmes

YOU CAN HOLD US TO

Data-led · Diagnosis built on your numbers, not templates

Implemented · We stay through rollout, not just the report

INDUSTRIES WE SERVE

Built around how your sector actually runs.

A hotel in Wuse II and a cement line in Ewekoro both need uptime, for different reasons, on different budgets, with different people signing the purchase order.

Hospitality
Guests notice a dead air-conditioner long before they notice the new lobby. Every outage shows up in reviews.

Manufacturing
One failed bearing can idle a whole line. Waiting a fortnight for an imported part is not an option.

QSR & Retail
Twenty outlets, twenty generators, twenty fridges. Small failures multiply fast across a chain.

Construction & Real Estate
Material price swings and slow approvals eat margins before the first slab is cast.

Energy & Power
Equipment lead times are long and the cost of a wrong specification is longer.

Agriculture
Post-harvest losses and unreliable inputs turn good yields into thin margins.

Logistics
Warehouses need power, visibility and security around the clock. Trucks need parts yesterday.

Financial Services
Regulators expect uptime and security. Branch networks make both expensive.

SMEs
Growing firms need enterprise-grade systems without enterprise-grade overhead.

PLATFORMS WE SOURCE & INTEGRATE

Microsoft · Cisco · Dell Technologies · Hewlett Packard · Hikvision · Kaspersky · Symantec

THE 4.0 EXECUTION ADVANTAGE

Fragmented vendors cost more than their invoices.

Single-point accountability

Strategy, procurement and field implementation under one roof. One lead owns your outcome from the first site visit to the signed handover certificate.

Dual-corridor logistics

Teams and stock in Mararaba-Karu and Satellite Town mean we reach the North and the South without subcontracting the job to a stranger.

OEM-certified quality

Zero tolerance for counterfeits. We buy from manufacturers and their authorised channels, and we can show you the paperwork.

Measurable ROI

We report in the numbers your CFO cares about: uptime, cost per asset, fuel per kWh and turnaround time. If it is not getting better, you will see it.

HOW WE ENGAGE

From first call to signed-off handover.

01 **Scope**

We visit, listen and measure. You get a clear statement of the problem, the options and what each would cost.

1–5 DAYS · SCOPE NOTE & BUDGET RANGE

02 **Design & source**

Engineers specify, buyers source from OEM channels, and you approve one consolidated proposal.

1–4 WEEKS · PROPOSAL, BOQ & PROGRAMME

03 **Deliver**

Our crews install, build or implement against the programme, with weekly reports and documented quality checks.

PER PROGRAMME · WEEKLY REPORTS & TEST RECORDS

04 **Sustain**

Handover, training and maintenance plans. We measure results against the baseline and stay on call.

ONGOING · HANDOVER PACK & SLA

FOURPOINTZERO
GROUP

Got a tender, a failing asset or a growth target?

Send the brief as it is. A named lead replies within one working day, and urgent breakdowns are usually answered within hours.
